PROFESSIONAL
CLEANING for the COLD CHAIN

CLEANING,
PROTECTION and
RESPECT for the ENVIRONMENT

NEWS2023

*The aerosol
does not contain propane inside!*

Professional and specific products for a deep cleaning of the internal and external units in the air conditioning and refrigeration sectors.

Its extremely performing formulation boasts an absolute novelty in the sector:

These products are formulated with **100% vegetable surfactants** which, combined with the very high level of cleansing, have hypoallergenic characteristics and fragrance, **SLS / SLES free.**

- The cleansing of any surface has become essential during this time, ELKE has worked in his laboratories for the development of extremely professional and cutting-edge products. We proudly present two different product lines in addition to our sanitizing products with medical certification.

Our priorities in the formulation of these products were:

PROFESSIONAL EFFECTIVENESS, HEALTH and ENVIRONMENTAL DEFENSE.

The new line is completely "ECO-FRIENDLY", formulated with 100% VEGETABLE SURFACTANTS, HYPOALLERGENIC and compliant with the HACCP regulation.

No impact on the environment unlike common products of petrochemical origin.

The packaging is 100% RECYCLABLE.

- ELKE thus launches a line with the aim of an ethical value for the conservation of our planet.

We would love if you joined us in this project and revolution in favor of the environment.
